INTERIØR & MØBLER (INTERIOR & FURNITURE) is an established publication that has been published since 1988. The book presents the best interior and furniture projects in Norway from the past year done by NIL's members.

By advertising in INTERIØR & MØBLER, you reach the industry's key decision-makers directly. The book is widely distributed to all interior architects and furniture designers within NIL, as well as to public and private developers, municipalities, regional councils, state agencies, real estate companies, architecture firms, libraries, educational institutions, the media, and Norwegian embassies worldwide.

In addition to the printed book, the complete content – including the ads – is published on interiorogmobler.no.

NIL's members actively use both the printed and digital editions in professional settings and client meetings.
